

CLEAR Sealant

946 ml • 3.78 Liters

**WATERPROOF
FLEXIBLE
AESTHETICAL PROTECTION**

Clear and flexible thermoplastic sealant in paste. Once dried-out, it forms a waterproof and translucent film. Excellent high/low temperature resistance.

Use:

It repairs leaks and damaged surfaces of any COLORED roofs or any other type of roofs. It repairs and waterproofs, chimney flashing, skylights, roof vents or dripping gutters. It bonds to metal, tiles, aluminum, concrete, brick and wood. It can be applied on a wet or dry surface.

Application:

The surface must be clean and free of loose material. Apply with a trowel or a putty knife a thin layer of 3 to 6 mm (1/8 to 1/4) thick. It can be used in cold temperature, but for a better result, apply at 5° C or more.

Clean tools and equipment with mineral spirits.

Cure drying time: about 60 minutes.
