

## CLEAR Roof Coating

3,78 Liters • 10 Liters • 13,9 Liters

**WATERPROOF**

**FLEXIBLE**

**PREVENTS ALGAE AND MILDEW**

**NON-TOXIC**

**WOOD PROTECTOR**

Clear water base roof coating formulated with thermoplastic polymers. It has a milky appearance, but once dried-out, it forms a translucent waterproof film offering a long lasting protection against bad weather conditions and prolong the life of roofs. It is non-toxic, odourless, waterproof, stretchable, durable, effective in extreme weather and improve the look of the roofs. **CR2030 is strongly recommended on roofs that have mould problems.** It prevents algae and mildew and is efficient on north sides of roofs and it even protect against conifer thorns.

Depending on the condition of the surface to be treated, CR2030 can prolong the life of roofs for at least 5 years or more.

### Use:

It waterproofs and locks in place asphalt shingle granules and is efficient as well on any other type of roofs (felt and asphalt paper, galvanised steel, cedar shakes, etc.) This product can be stain. See detail on the container and consult the paint adviser in the store.

*-Excellent waterproofing properties on wood, either inside or outside.*

### Application:

The surface must be clean, free of loose material and dry. Roof shingles must lay flush to surface,

Apply at 5°C or more with a paint roller, paint brush or airless sprayer.

### Coverage:

Dependant upon surface porosity.

Smooth surface: 1 liter covers from 7.5 to 12.5m<sup>2</sup> (80sf to 130sf)

Rough surface: 1 liter covers from 3 to 4 m<sup>2</sup> (25sf to 40sf)

### Cleaning:

Water and soap only

**Keep from freezing**
